## Nine BDS students of SGTU selected for ICMR-STs research project

**Gurugram:** SGT University's Faculty of Dental Sciences has achieved a significant academic milestone by selecting nine BDS students from the first and second years for the prestigious Indian Council of Medical Research Short Term Studentship (ICMR-STs) Project 2026 on August 21. The selection reflects the students' growing interest in dental research and the strong academic and mentorship environment at the

Faculty of Dental Sciences.

The selected students will have the opportunity to undertake research projects under the guidance of experienced faculty mentors, gaining valuable exposure to scientific investigation and evidence-based healthcare. From the BDS first year, the selected students are Arindeep Singh, mentored by Dr Karandeep Singh; Vashvani, mentored by Dr Amit Bharadwaj; Prachi Pandey, mentored by

## College of Pharmacy bags consultancy projects worth ₹7.44 lakh

**Gurugram:** SGT College of Pharmacy has achieved a significant milestone, receiving seven consultancy projects worth ₹7.44 lakh from Dr Nature Wellness Pvt. Ltd. and Biosash Business Pvt. Ltd. The achievement reflects the college's continued focus on research, innovation, and meaningful industry

collaboration. The consultancy projects are expected to strengthen the connection between academia and industry. The college congratulated Dr Vinod Kumar Gautam, Dr Sandeep Kumar Yadav, Dr Vaibhav Walia, and others associated with the achievement.

## 'Nasha Mukh Yuva' programme inspires students to champion a drug-free India

*Shivam Tiwari*

**Gurugram:** SGT University organised a live telecast of the inspiring address by the Hon'ble Prime Minister of India under the 'Nasha Mukh Yuva – Viksit Bharat Abhiyan' on August 3. The programme aimed to raise awareness among young people about the importance of staying away from substance abuse and embracing a healthy, disciplined and responsible lifestyle. The event was attended by Rao Narbir Singh, Hon'ble Minister for Industries & Commerce, Environment, Foreign Cooperation and Sainik Welfare,

Government of Haryana. Addressing the gathering, he highlighted the vital role of youth in shaping the country's future and encouraged students to make responsible choices while contributing to building a healthier, more developed India.

## SGTU media students gain industry exposure at Jagran Film Festival

**New Delhi:** Students from the School of Emerging Media, Communication and Film Studies (SMCF), SGT University, gained practical experience by volunteering at the Jagran Film Festival (JFF), held from August 20 to 23. The initiative provided students with an opportunity to learn about the functioning and management of a large-scale film festival through direct industry exposure.

During the four-day festival, students took on various responsibilities that exposed them to the logistical challenges of managing large-scale film events. Some

students were assigned to media coordination, while others were involved in audience management, the Fashionista segment, celebrity security, and crowd management. Instead of participating merely as audience members, the students became part of the festival team.

The experience enabled students to understand the challenges of handling last-minute requests, attending to guests' needs, managing large crowds, and coordinating among different teams and units. The organisational

structure of the festival provided students with an opportunity to practise and develop workplace skills such as teamwork, communication, coordination, crowd management, and production.

## Fertiliser sector experts convene to discuss policies, technology and management

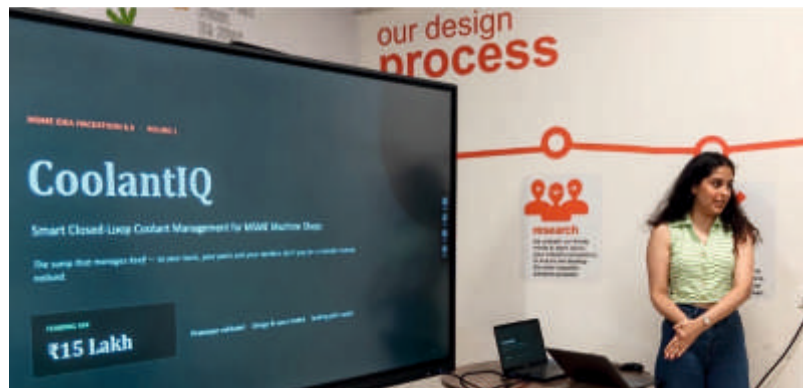

**Gurugram:** The Faculty of Agricultural Sciences at SGT University, Gurugram, in collaboration with the Fertiliser Association of India-Northern Region (FAI-NR), organised a fertiliser orientation programme on “Fertiliser Sector: Policies, Technologies, Management and Opportunities” at the university campus. Sponsored by Krishak Bharati Cooperative Limited (KRIBHCO), the programme aimed to strengthen industry-academia interaction by providing participants with insights into the contemporary fertiliser sector, technological advancements,

regulatory frameworks, marketing and logistics, soil health management, supply chain operations, and emerging career opportunities.

The programme was graced by Dr Suresh Kumar Chaudhary, Director General, Fertiliser Association of India, New Delhi, as the Chief Guest. During the inaugural session, Dr Pooja Pant, Dean, Faculty of Agricultural Sciences, SGT University, delivered the welcome address. Dr D. S. Yadav, Director (Publications and Public Relations), FAI, New Delhi, introduced the programme, while Prof. B. J. Rao, Vice Chancellor, SGT University, delivered the inaugural address.

The programme witnessed participation from experts and professionals representing leading organisations in the fertiliser sector.

## Business Incubator hosts MSME IDEA Hackathon 6.0

**Gurugram:** The SGT University MSME Business Incubator successfully conducted the MSME IDEA Hackathon 6.0, providing a dynamic platform for startups, innovators, and young entrepreneurs to showcase ideas aimed at addressing real-world challenges. The event brought together 47 startups and young innovators, highlighting the growing spirit of entrepreneurship and innovation

among emerging businesses. Organised to encourage innovative thinking and support promising entrepreneurial ventures, the hackathon gave participants the opportunity to present their solutions to an expert evaluation panel. The participating ideas represented diverse approaches to addressing contemporary challenges through innovation, technology, and entrepreneurship.

### SGTU and UltraTech Cement join hands

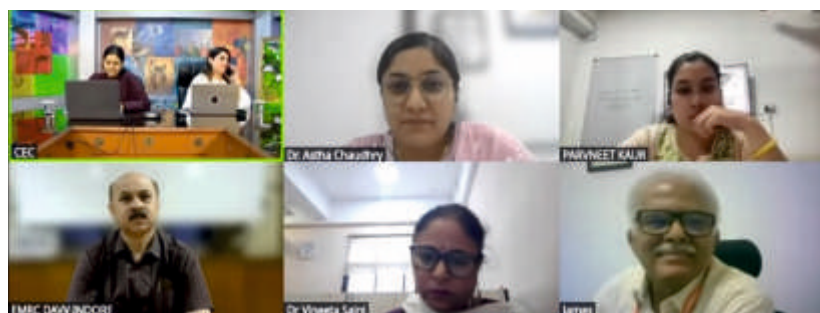

**Gurugram:** SGT University has taken an important step towards strengthening industry - academia collaboration by signing a Memorandum of Understanding (MoU) with UltraTech Cement Limited on August 6. The partnership aims to provide civil engineering students with greater exposure to modern construction practices, sustainable development, and evolving industry requirements. A major highlight of the collaboration is the establishment of the Centre of Excellence for Advanced Building Material & Sustainable Development at the university.

## SGTU workshop equips 60+ academicians with insights into developing MOOCs

**Gurugram:** The Centre of Excellence for Andragogical and Pedagogical Sciences (CEAPS), SGT University, in collaboration with the Consortium for Educational Communication (CEC), UGC, organised an online MOOCs Awareness Workshop for academicians.

The workshop aimed to familiarise faculty members with the process of developing Massive Open Online Courses (MOOCs) and encourage their active participation in India's digital higher education initiatives. More than 60 faculty members, course coordinators, and academic scholars from SGT University participated in the workshop. The sessions provided

detailed insights into the planning, development, instructional design, and effective implementation of MOOCs under the Government of India's online education initiatives. The programme commenced with a welcome address by Dr Col. P. S. James, Director, CENT, who

highlighted the growing role of MOOCs in expanding access to quality higher education, promoting flexible learning, and connecting institutions with the national digital learning ecosystem. He said that SGT University is committed to promoting innovative

teaching-learning methodologies and strengthening faculty capabilities in digital education. During the technical session, Dr Chandan Gupta, Director, Educational Multimedia Research Centre (EMRC), Indore, served as the expert resource person. He provided comprehensive insights into the entire process of MOOC development, including principles of instructional design, content creation, production workflow, quality assurance, certification mechanisms, and guidelines for submitting MOOC proposals. The interactive session saw active participation from faculty members.

### SMCF workshop helps students master the art of camera acting

**Gurugram:** The School of Emerging Media, Communication & Film Studies (SMCF), SGT University, organised an engaging acting workshop, ‘From Emotion to Performance’, at the Media Centre on August 18.

The workshop was designed to help students understand the nuances of acting for the camera while developing their confidence, communication, and presentation skills. Participants explored key aspects of performance, including facial expressions, body language, voice modulation, and camera awareness.

### Nasha Mukh Yuva' programm...

#### Remaining part of page1

A key highlight of the programme was the administration of the ‘Nasha Mukh Yuva Pledge’, in which students, faculty members and staff collectively reaffirmed their commitment to creating a drug-free society.

The programme witnessed enthusiastic participation from the university community. Students listened attentively to the address and actively participated in the pledge, reflecting their commitment to promoting awareness and responsible choices among young people, through such initiatives.

## Nine BDS students of SGTU selected...

#### Remaining part of page1

Dr Apna; Manavi Kaushik, mentored by Dr Ananya; and Bhumi, mentored by Dr Surbhi Priyadarshi. From the BDS second year, the selected students are Sarah, mentored by Dr Bhawna Saini; Kumud Bhadwar, mentored

by Dr Vishal Sharma; Pianjani Modi, mentored by Dr Aparna Dave; and Arnav Kakkar, mentored by Dr Mamta Singla. The ICMR-STS programme provides undergraduate medical and dental students with an opportunity to develop research aptitude and gain first-hand experience in scientific

methodology.

Such programmes play an important role in encouraging young healthcare professionals to explore research-driven approaches to patient care and clinical practice. The Faculty of Dental Sciences congratulated all nine students and their mentors.

## Students gain hands-on experience...

#### Remaining part of page1

The festival also gave students the opportunity to see and interact with well-known film personalities, including Bobby Deol, Imtiaz Ali, Taapsee Pannu, Javed Jaaferi, Moushumi Chatterjee, and Sayani

Gupta, enhancing their overall experience.

The Jagran Film Festival provided students with an opportunity to gain practical knowledge through experiential learning and understand the realities of event management in the media and

entertainment industry.

The experience helped students recognise that working in the media industry involves more than attending an event. It requires the ability to balance multiple responsibilities.

### SGTU alumni make their mark...

#### Remaining part of page1

Their professional accomplishments and career progression reflect their continued commitment to excellence in their chosen fields. The achievements of these alumni are a matter of pride for SGT University and serve as an inspiration for students embarking on their own academic and professional journeys.

Shree Guru Gobind Singh Tricentenary University congratulated its alumni on their accomplishments and wished them continued success, growth, and excellence in their future endeavours.

# 'Deeksharambh 2026' marks the beginning of a new academic journey

**Gurugram:** SGT University organised 'Deeksharambh 2026', its annual induction and orientation programme for newly admitted students, on August 17. The six-day

programme was designed to help students transition smoothly into university life while introducing them to the institution's academic culture, values, and diverse

opportunities. 'Deeksharambh 2026' brought together students, faculty members, university administrators, and academic

leaders in a warm and welcoming environment. The programme aimed to familiarise students with the university's multidisciplinary

learning ecosystem and encourage them to actively participate in both academic and co-curricular activities.

## SMCF freshers get industry insights from journalist Syed Mohd. Irfan

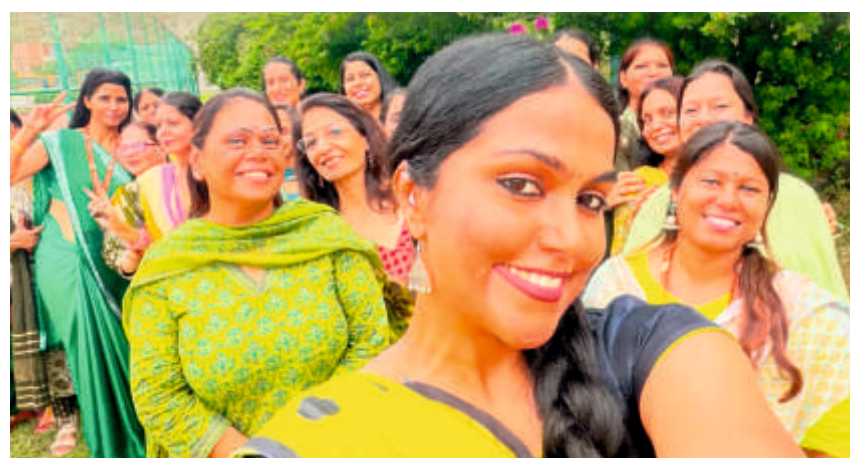

**Gurugram:** The School of Emerging Media, Communication

and Film Studies (SMCF), SGT University, organised an Industry Connect session for newly admitted students of BAJMC and MAJMC as part of "Deeksharambh – Induction Programme 2026". The session featured journalist and anchor Syed Mohd. Irfan, Founder, Producer, and Host of the celebrity talk show 'Guftagoo'. With years of experience in the

media industry, Irfan interacted with students and shared practical insights from his professional journey. The session focused on the realities of building a career in the media industry, with discussions covering journalism, television, anchoring, and storytelling. He also highlighted the importance of curiosity, communication skills, creativity, professionalism, and consistency in a rapidly changing media landscape.

## Hariyali Teej celebrated at SGT University

**Gurugram:** Hariyali Teej was celebrated on the SGT University campus with shades of green, festive enthusiasm, and a spirit of togetherness. Women members of the SGT University community came together to embrace tradition, celebrate the festive spirit, and create cherished memories.

The celebration reflected the richness of Indian culture and traditions, with festive colours and enthusiasm adding to the occasion. The gathering provided an opportunity for participants to celebrate the festival together and

strengthen the spirit of community and togetherness on campus.

A highlight of the ceremony was the experience-sharing session, where interns reflected on their learning journey and discussed how the programme enhanced their scientific knowledge, practical skills, and confidence. Participants also expressed appreciation for the mentorship provided by faculty members and researchers, describing the internship as a valuable opportunity to experience a professional research environment.

## Organic alternatives can cut chemical fertiliser dependence by up to 50%

**Gurugram:** Renowned agricultural scientist Dr Shakti Om Pathak has said that

geopolitical circumstances worldwide, particularly growing tensions in West Asia and developments such as the Iran-US conflict, are adversely affecting the energy and fertiliser industries. He noted that the country is currently facing a serious shortage of chemical fertilisers. Dr Shakti Om Pathak, Assistant Professor at SGT University, Gurugram, has advised farmers to reduce their dependence on chemical fertilisers and make greater use of organic and locally available resources under the prevailing circumstances. Dr Pathak is also in charge of the Soil Testing Laboratory at SGT University.

## SGTU workshop brings India's handloom heritage alive for students

**Gurugram:** Preserving traditional art forms while encouraging innovation remains an important responsibility of educational institutions. With this vision, SGT University organised a workshop on Handloom and Weaving on August 12, bringing students closer to India's rich textile heritage through an interactive and hands-on learning experience.

Titled "Threads of Innovation: Reimagining India's Handloom Heritage," the workshop provided participants with an opportunity to understand the journey of a handwoven fabric, from the

weaving process to the finished product. Rather than focusing solely on textiles, the session explored traditional techniques, craftsmanship, and cultural knowledge passed down through generations.

The workshop was conducted by Mr Parveen Kumar Tiwari, Senior Lecturer and Professional Weaver, School of Design, SGT University. Through live demonstrations and practical discussions, students gained valuable insights into traditional weaving methods and explored the creative possibilities within the handloom industry.

## Media students get first-hand broadcasting experience at All India Radio

**Gurugram:** Students of the School of Emerging Media, Communication & Film Studies (SMCF), SGT University, visited All India Radio (AIR), New Delhi, as part of an industry visit and experiential learning initiative to provide them with practical exposure to the professional media environment.

During the visit, students gained first-hand insights into the workings of radio broadcasting and observed how radio anchors present live programmes, how live sessions are aired, and how dubbing and recording are carried out in professional studios. The students visited the Newsroom, Dubbing Studio, FM Gold, and FM Rainbow

studios, where they observed the various stages involved in radio production and broadcasting. They also learned about programme scheduling, production workflows, and the process of taking programmes from planning and recording to final broadcast.

A special highlight of the visit was the Bapu Studio, which also has an important historical association with Mahatma Gandhi. The visit provided students with an opportunity to understand not only the technical dimensions of broadcasting but also the historical significance of radio as a medium. The experiential visit helped students connect classroom concepts with real-world media practices.

## SGTU strengthens emergency care skills through simulation based training

**Gurugram:** SGT University's National Reference Simulation Centre Medical (NRSCM) organised a one-day Skill & Simulation Training Programme on Basic Life Support (BLS), Basic Emergencies and Trauma Management on August 2025. The programme was attended by 17 participants and two staff members

from Six Sigma Healthcare, Delhi, providing them with an opportunity to strengthen their emergency care skills through practical and simulation-based learning. The training was designed to go beyond classroom-based learning and give participants hands-on experience in responding to critical situations.

## R&D Cell facilitates signing of two strategic MoUs

**Gurugram:** The Research & Development Cell of SGT University has achieved a significant milestone by facilitating the signing of two strategic Memorandums of Understanding (MoUs), further strengthening the university's commitment to research, innovation, and knowledge exchange.

The first MoU, signed between SGT University, Indian Immunologicals Limited (IIL), Hyderabad, and iCubedG Ideas Pvt. Ltd., establishes a Government-Industry-Academia

partnership to explore the large-scale feasibility and translational potential of RISUG Biomedical Technology. The collaboration brings together expertise in deep-science research, technology development, manufacturing, and clinical research.

The initiative also holds promise for advancing non-hormonal reproductive-health solutions for human and animal welfare. The second MoU, signed between SGT University and Innovative Publication.

## Two nursing students honoured with prestigious SNAI scholarships

**Gurugram:** Two B.Sc. Nursing students, Sakshi and Aman, from the fifth semester of the School of Nursing, SGT University, have been honoured with the prestigious SNAI Scholarship 2025-2026, awarded by the Trained Nurses' Association of India (TNAI), New Delhi.

The recognition celebrates their academic excellence, clinical dedication, and commitment to the nursing profession. The achievement reflects their hard work and dedication while highlighting the strong academic foundation provided by the School of Nursing.

## Excellent sportsmanship marks the inter faculty table tennis tournament

**Gurugram:** The inter faculty table tennis (singles) tournament at SGT University witnessed five days of exciting rallies, fierce competition, and sportsmanship. Students, teaching faculty members, and non-teaching staff came together to showcase their skills, determination, and passion for the game.

The matches reflected the spirit of healthy competition and unity among members of the SGT University community. The

winners were honoured with medals and certificates in recognition of their performances.

The winners included Asad Habib, Aditi Saini, Nagendra Yadav, and Aayush Gupta.

The tournament highlighted the importance of strategy, determination, teamwork, and a positive competitive spirit while providing participants with an opportunity to demonstrate their sporting abilities.

## World Cleft Day observed with focus on awareness, acceptance & action

**Gurugram:** SGT University's Faculty of Dental Sciences, in partnership with Smile Train under the HORIZON initiative, observed World Cleft Day with an awareness programme dedicated to supporting children born with cleft lip and palate.

The programme aimed to promote greater awareness about cleft conditions, encourage early

intervention, and address the social stigma often associated with children living with cleft lip and palate.

Through informative interactions, participants highlighted the importance of timely medical and dental care, emotional support, and the creation of an inclusive environment where every child can grow with confidence and

dignity.

The initiative also focused on the importance of holistic care for patients and their families. Recognising that treatment goes beyond clinical intervention, the programme emphasised the need for continuous support, understanding, and acceptance for children affected by cleft conditions.
